Quarterly News, To Keep You AFIXXed...

Volume 1 Issue 4

Bob's Bullpen...

Baseball is back, so naturally Bob has a big smile on his face. He recently took a tour of our warehouse, (it's not so easy for him to get around anymore), and was amazed at the technology in place to pick and pack orders. He saw that every item has been bar coded, and it immediately led to stories of how he used to look for parts in his cardex system. Bob also reiterated how everything was better, "back in the day" and that the only way he did business was with a handshake and a personal relationship. Although things are a bit different today, AFIXX still maintains this core value.

Go Cubs!

Whats New?

What's New

Solid first quarter of 2017 behind us, and the second quarter is looking very promising as well.

We've had a great response to the AFIXX-ers social media campaign. AFIXX has introduced two AFIXX-ers so far, Bob, Larry and the sisters team of Deb, Tracy and Kelly will be introduced soon. Please look for new releases on our twitter feed @AFIXXAlliance.

Thanks to Tony DiMaio for conducting the first of our educational webinars on our products. Tony spoke about rivet and rivet nuts, and I think we all walked away with lots of valuable information.

Make sure to look for our U.S. History facts of the week and our Did You Know tweets about AFIXX.

AFIXX appreciates the press release in the American Fastener Journal digital section regarding our new Tri-fixx and Q-fixx rivets.

Thanks as always to our customers and sales team for helping with AFIXX's continuing growth.

Go Cubs!

All the best,

Featured Product

AFIXX is now stocking Q-fixx Rivets! These are Structural rivets with an internal interference lock, which insures the mandrel and rivet body plug the hole diameter. Our Q-fixx rivet has a high tensile and shear strength, with a weatherproof feature.

Comparable Parts: Q Rivet®, RKQ™, and Q-LOK
